NEW YORK--(BUSINESS WIRE)--Jun. 18, 2020-- IVERIC bio, Inc. (Nasdaq: ISEE) (the "Company"), today announced the pricing of an upsized underwritten public offering of 24,535,720 shares of its common stock at a price to the public of \$4.100 per share and, to certain investors in lieu of common stock, pre-funded warrants to purchase 1,914,280 shares of its common stock at a price to the public of \$4.099 per pre-funded warrant, in each case less underwriting discounts and commissions. The purchase price of each pre-funded warrant represents the per share public offering price for the common stock, minus the \$0.001 per share exercise price of such pre-funded warrant. In addition, in connection with the public offering, the Company has granted the underwriters an option for a period of 30 days to purchase up to an additional 3,967,500 shares of common stock at the public offering price, less underwriting discounts and commissions. All of the securities are being offered by the Company.

Concurrent with the public offering, the Company has agreed to sell, subject to the consummation of the public offering and other customary conditions, in a private placement exempt from the registration requirements of the Securities Act of 1933, as amended (the "Securities Act"), 8,649,453 additional shares of its common stock to affiliates of Vivo Capital, LLC and Samsara BioCapital, LP, at a sale price equal to the price to the public in the public offering.

The aggregate gross proceeds from the public offering and the concurrent private placement are expected to be approximately \$143.9 million, before underwriting discounts and commissions, placement agent fees and offering expenses payable by the Company, and without giving effect to any exercise by the underwriters of their option to purchase additional shares.

Cowen and Credit Suisse are acting as the book-running managers for the public offering and as placement agents for the concurrent private placement. Wedbush PacGrow is acting as lead manager for the public offering. The public offering and the concurrent private placement are expected to close on or about June 22, 2020, subject to customary closing conditions.

The public offering is being made only by means of a prospectus supplement and accompanying prospectus that form a part of an effective registration statement. A final prospectus supplement related to the public offering will be filed with the Securities and Exchange Commission (the "SEC") and will be available on the SEC's website at www.sec.gov. This press release does not constitute an offer to sell, or a solicitation of an offer to buy these securities, nor shall there be any sale of these securities in any state or jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or jurisdiction.
